OBJECTIVE

With over 3 years of experience as a Front-end Developer, I seek to further grow my career in a professional environment where I can leverage my expertise in modern technologies such as React, TypeScript, and Redux to build high-performance, scalable, and user-friendly web applications. I'm passionate about improving user experience, optimizing front-end performance, and collaborating closely with backend teams to ensure smooth system integration. My short-term goal is to advance to a Senior Front-end Developer role, while expanding my skills in system architecture, automated testing, and CI/CD pipelines to contribute more effectively across the full development lifecycle.
